

BSBL COVID Protocol Waiver

We at the BSBL understand that these are uncertain times we are living in, and we acknowledge that, while we have gained valuable information about COVID 19 in these last few months, there is still much we don't know. Your health, and the health of your family, is a primary concern of ours, but the desire to return to play is also very strong. After much deliberation, we have decided to move forward with having the leagues this winter. As before, we will be playing games in several different locations. Each gym director will be writing and posting the specific COVID protocols for their individual location. Those policies will be made available to you through our website. While the BSBL is not officially requiring any specific policies, as it relates to COVID 19, we are recommending the following:

The BSBL recommends that host gymnasiums do the following:

1. Check temps of players and coaches upon arrival.
2. Supply two game balls to be used throughout the day. Balls should be routinely disinfected and switched out regularly.
3. Don't provide cups, but allow players and coaches to refill water bottles as needed.
4. Disinfect bench areas between games.
5. Provide hand sanitizer at entrances for fans to use as they enter/exit the facility.
6. Think through how to help with social distancing in their bleacher area.
7. Make individual facility decisions as it relates to selling concessions or not.
8. Clearly post COVID 19 protocols on doors and throughout their facility.
9. Ensure no one is on the players side of the gym except players and up to 2 coaches.

The BSBL recommends that Coaches and Players do the following:

1. Bring their own balls with them to practices/games for warm-ups.
2. Bring their own water bottles for the day.
3. Have prayer and mid-court meetings before every game, but without player contact.
4. Provide their own hand sanitizer for use before, during, and after the game.
5. Line up at the end of the game, and appropriately acknowledge opponents while maintaining social distancing protocols.

The BSBL recommends that Fans and Spectators do the following:

1. Respect and observe social distancing protocols, including any requirements of wearing masks, that are set in place at each host location. Be gracious.
2. Stay home from the games if you are experiencing symptoms related to COVID-19.
3. Stay in designated, appropriate areas away from team and personnel members.
4. Gather children quickly and exit the facility, at the end of the game, in order to make room for arriving families of future games.
5. Plan ahead by having/bringing your own water bottles for drinking.

WAIVER * WAIVER * WAIVER * WAIVER * WAIVER * WAIVER

By affixing my name to this form, I understand and agree to the above recommendations.
